EXHIBIT A  
(Contract Rate of Delivery)

1. This Exhibit A, Revision 4, to be effective under and as a part of Contract 92-SAO-20056 (Contract) shall become effective August 1, 2000; shall supersede the current Exhibit A; and shall remain in effect until superseded by another Exhibit A or upon termination of the Contract.

2. The Contract Rate of Delivery shall be as follows:

Effective Date	Long-Term Firm Power (MW)	Diversity Power (MW)	Westlands Withdrawable Power (MW)	Total Contract Rate of Delivery (MW)
August 1, 2000	5.173	4.276	0.878	10.327
September 1, 2000	5.173	4.276	0.300	9.749
October 1, 2000	5.173	4.276	0.242	9.691
November 1, 2000	5.173	4.276	0.223	9.672
December 1, 2000	5.173	4.276	0.000	9.449

3. In accordance with Western's Final 1994 Power Marketing Plan published in the Federal Register on October 5, 1992, Western will convert a portion of Lodi's Westlands Withdrawable Power to Diversity Power effective on the dates and in the amounts specified in Section 2 above. Diversity Power requires a customer, at the request of Western, to reduce its schedule of Western power in the event that there is a reasonable certainty, as determined by Western, that the system simultaneous demand of the Central Valley Project will exceed 1152 MW, or the then existing load level limitation under Contract 14-06-200-2948A. For curtailment purposes, Diversity Power will be the power scheduled in excess of Long Term Firm and Westlands Withdrawable Power. Diversity Power will be subject to a one- (1) year written notice of termination. Western's dispatchers or schedulers may call upon Diversity Power with a minimum of one (1) hour's notice, with such curtailment becoming effective at the beginning of the hour or half hour, for hourly increments, with no increase in schedules of Western power allowed until notified by Western.

4. Energy Entitlements, including minimum annual requirements, and Maximum Coincident Allocations will not be affected by curtailments of Diversity Power.
